Attitudes Towards Health Care and Health Care Reform

National Polling
Pre-First Ministers' Meeting

February 3, 2003

POR-02-87
H1011-02-0091

3030202

part 1
volume 1

Methodology

◆ Attitudes towards health care and health care reform results based on:

- National Telephone Survey (pre-First Ministers' Meeting)
 - n = 1,506
 - ± 2.6 margin of error
 - Jan. 26 - Feb. 1, 2003

◆ Tracking data pulled from:

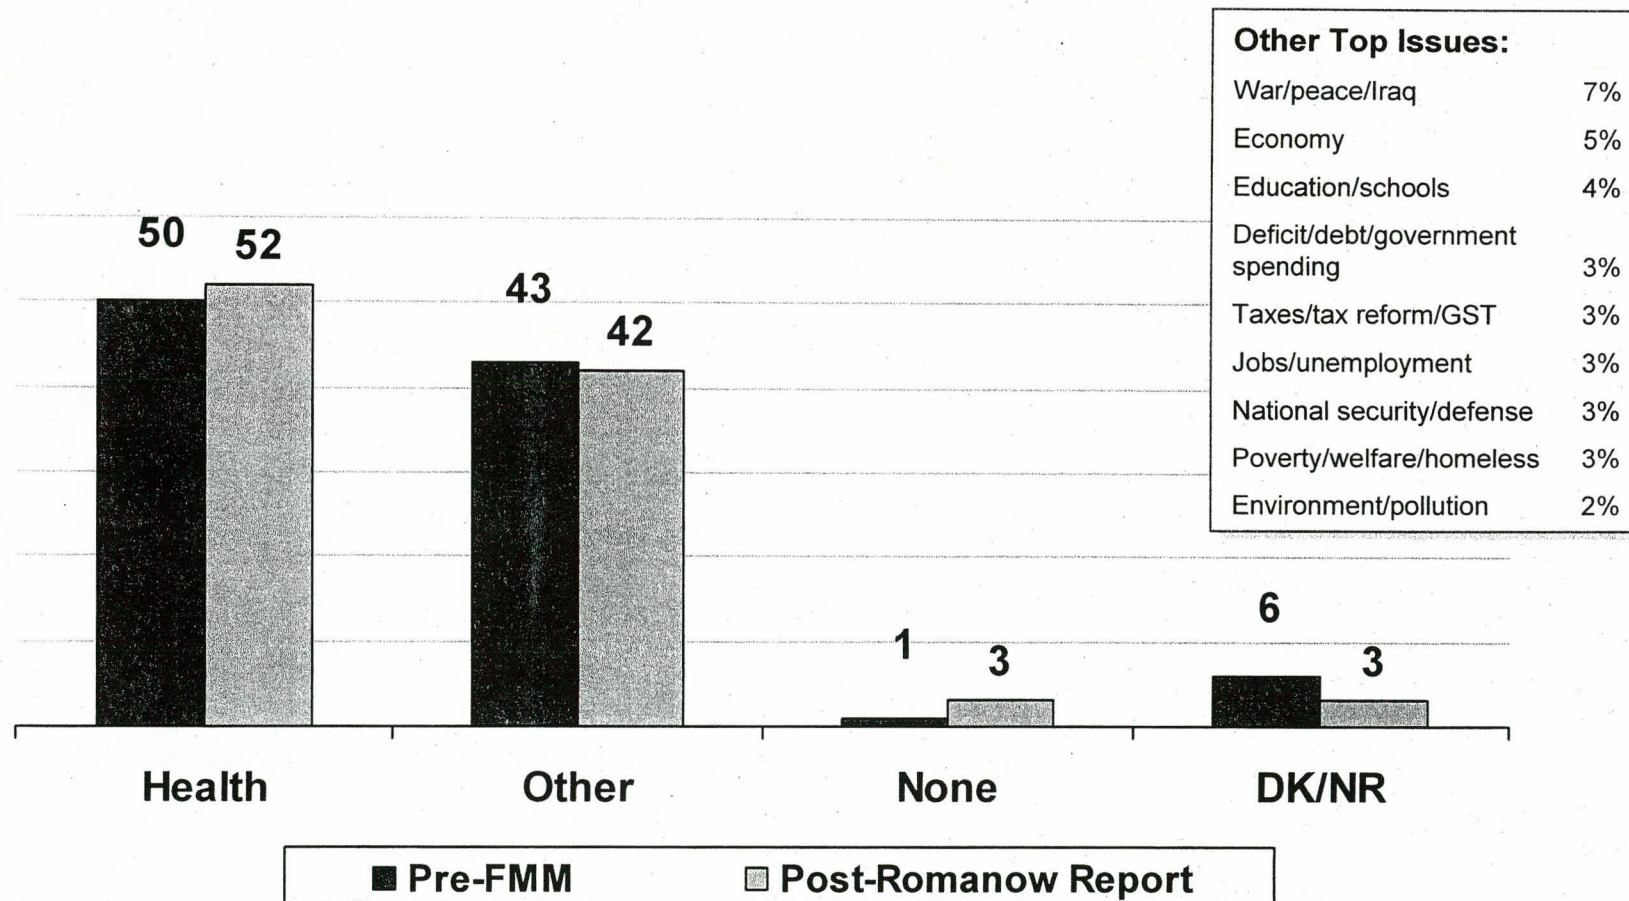

- National Telephone Survey (post-release of the Report on the Future of Health Care)
 - n= 2,446
 - $\pm 2.0\%$ margin of error
 - Dec. 1-12, 2002

Themes

- ◆ Top issue facing the Government of Canada
- ◆ Perceived state of health care
- ◆ Federal/Provincial roles in health care reform
- ◆ Reactions to health care reform proposals
- ◆ Reactions to funding and accountability proposals

Top Issue Facing the Government of Canada

Top Issue Facing the Government of Canada

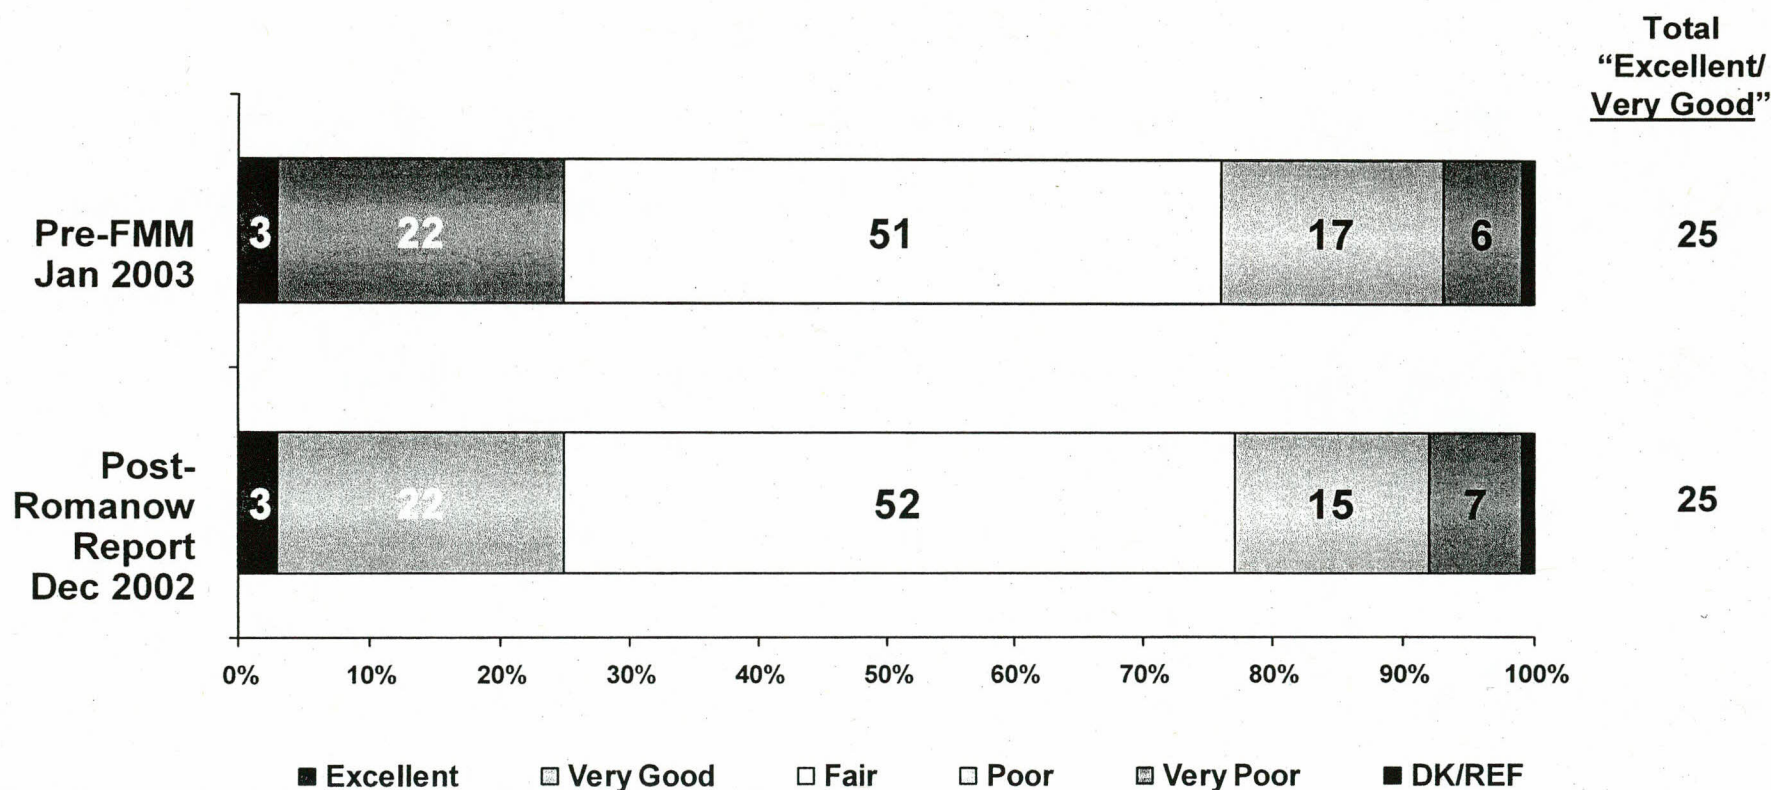

Q.1 Thinking about the issues facing Canada today, which ONE would you say the Government of Canada should focus on most?

Base: Total respondents (Pre-First Minister's Meeting, n=1,506*; Post-Romanow Report, n=2,446*)

* Weighted sample

Perceived State of Health Care

State of the Health Care System in Canada

Q.2 Overall, how would you rate the state of the health care system in Canada today? Is it excellent, very good, fair, poor or very poor?

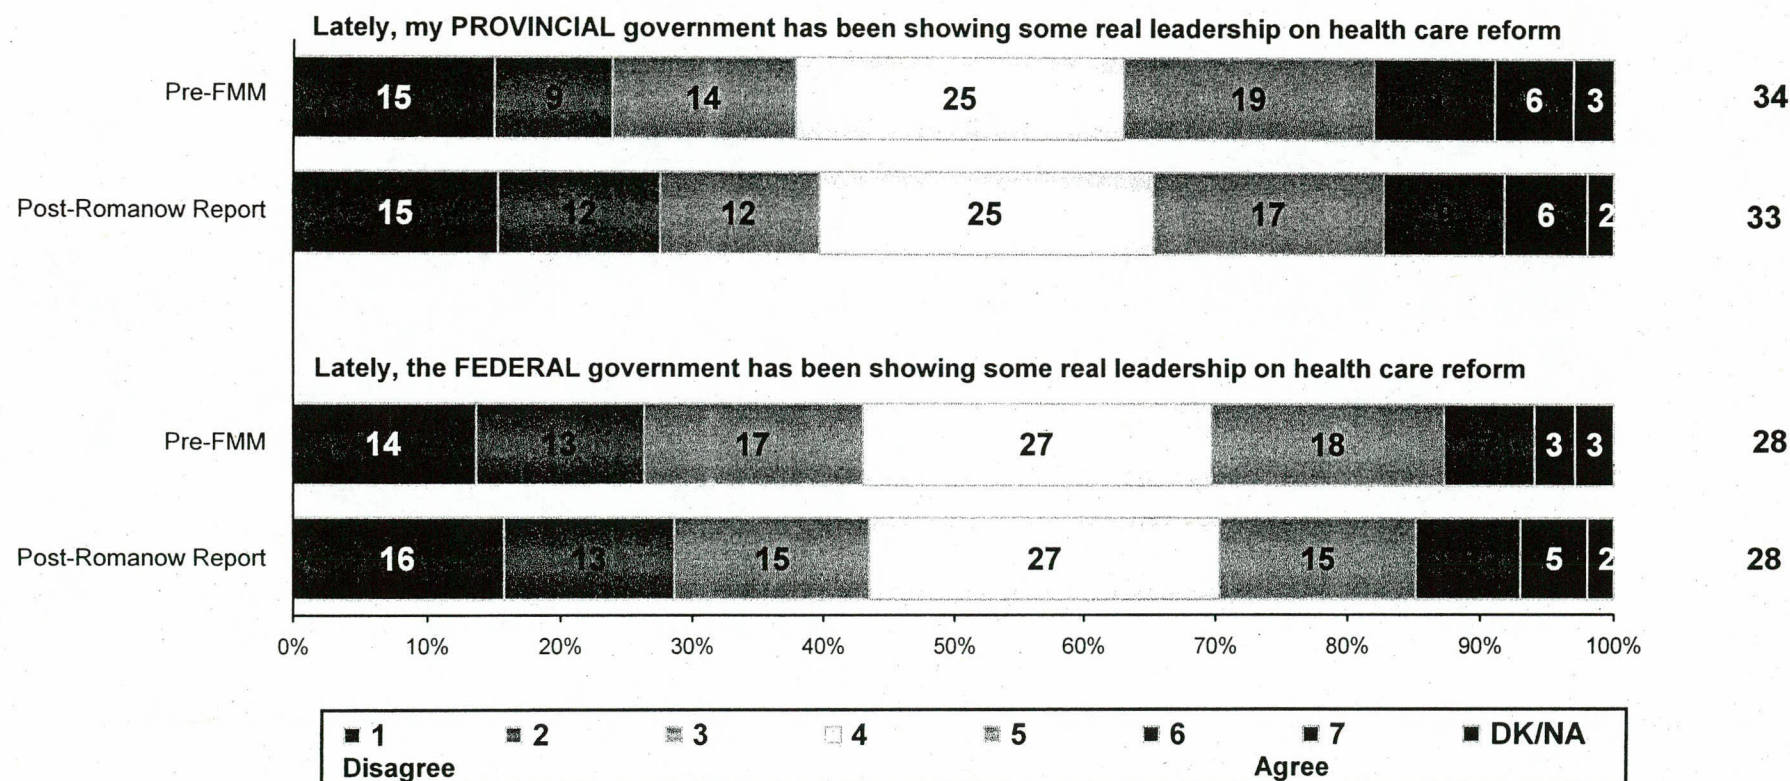

Base: Total respondents (Pre-First Minister's Meeting, n=1,506*; Post-Romanow Report, n=2,446*)

* Weighted sample

Federal and Provincial Roles in Health Care Reform

Assessment of Leadership in Federal/Provincial Governments

**Total "Agree"
(5, 6 and 7)**

Q.3b-c Using a scale of 1 to 7, where 7 means you strongly agree, 1 means you strongly disagree and the mid-point 4 means you neither agree nor disagree, please tell me if you agree or disagree with the following statements.

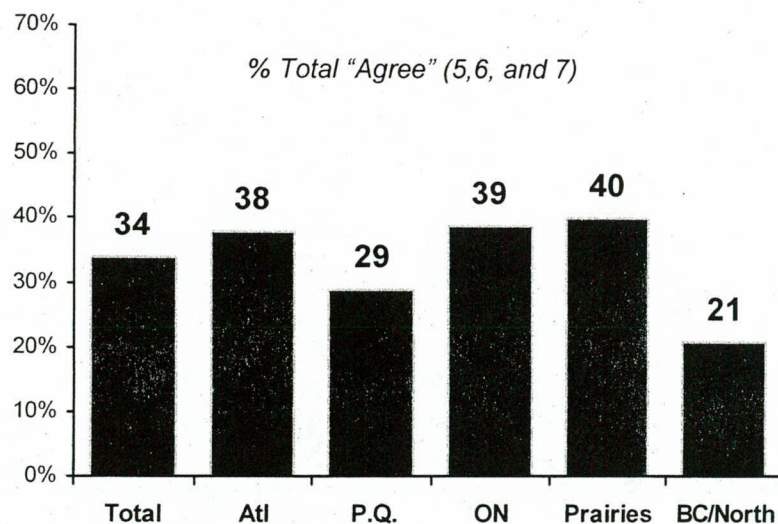

Base: Total respondents (Pre-First Minister's Meeting, n=1,506*; Post-Romanow Report, n=2,446*)

* Weighted sample

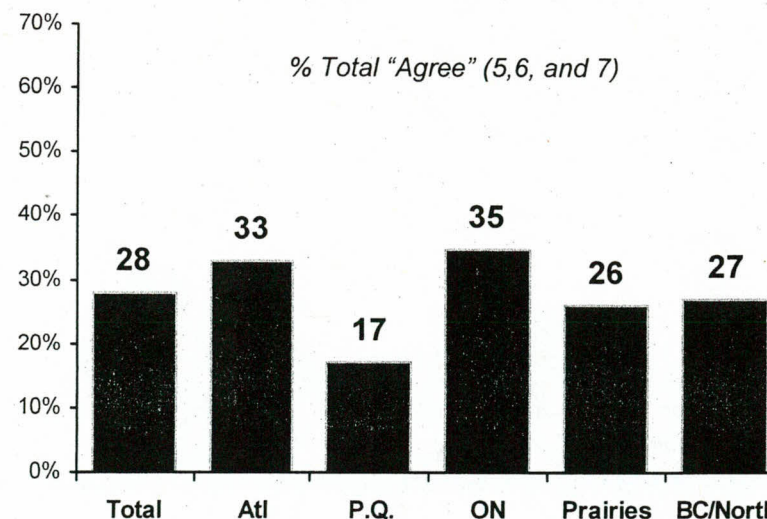

Assessment of Leadership in Federal/Provincial Governments - *By Region*

Pre-FMM Survey (Jan 26 - Feb 1, 2003)

Lately, my **PROVINCIAL** government has been showing some real leadership on health care reform

Lately, the **FEDERAL** government has been showing some real leadership on health care reform

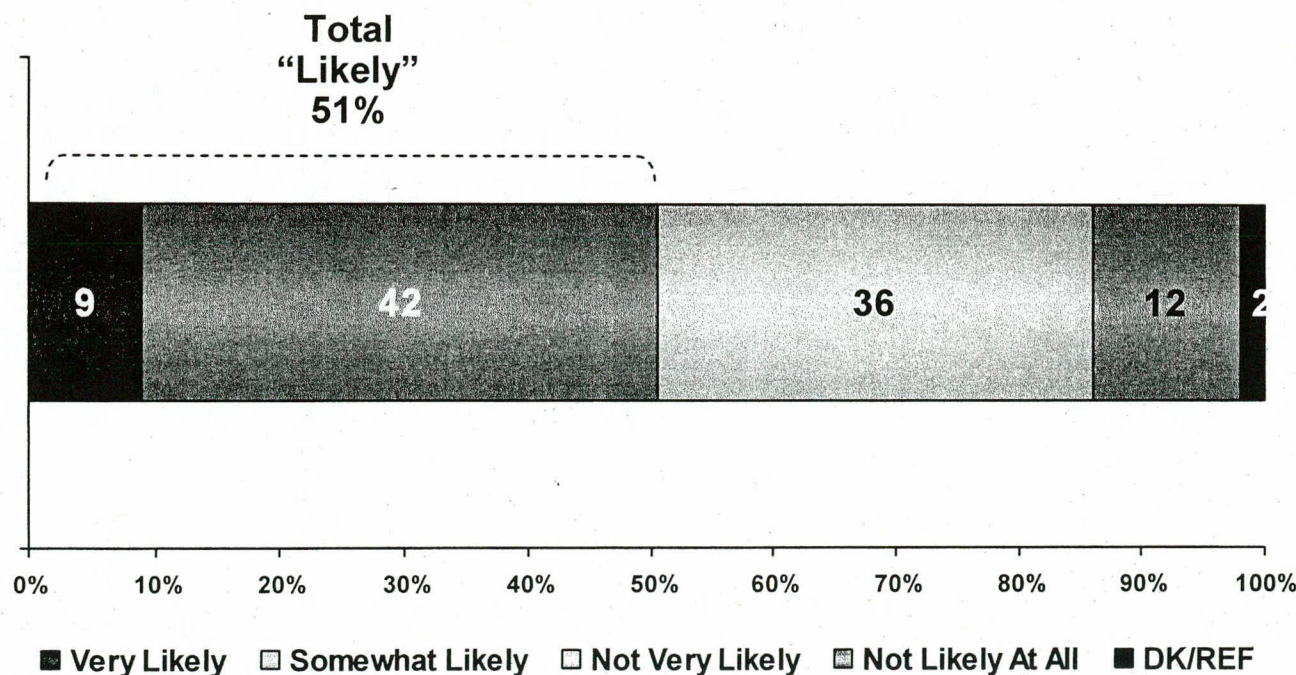

Q.3b-c Using a scale of 1 to 7, where 7 means you strongly agree, 1 means you strongly disagree and the mid-point 4 means you neither agree nor disagree, please tell me if you agree or disagree with the following statements.

Base: Total respondents (Pre-First Minister's Meeting, n=1,506*)

* Weighted sample

Likelihood of the Federal, Provincial and Territorial Governments Reaching Agreement on a Plan to Reform Health Care

Total "Likely" by Region:	
Atlantic	53
P.Q.	59
ON	49
Prairies	48
BC/North	45

Q.6 The federal, provincial and territorial governments will be meeting shortly to work toward an agreement on a plan to reform health care in Canada. How likely do you think it is that they will reach an agreement? Would you say it is ...

Base: Total respondents (n=1,506*)

* Weighted sample

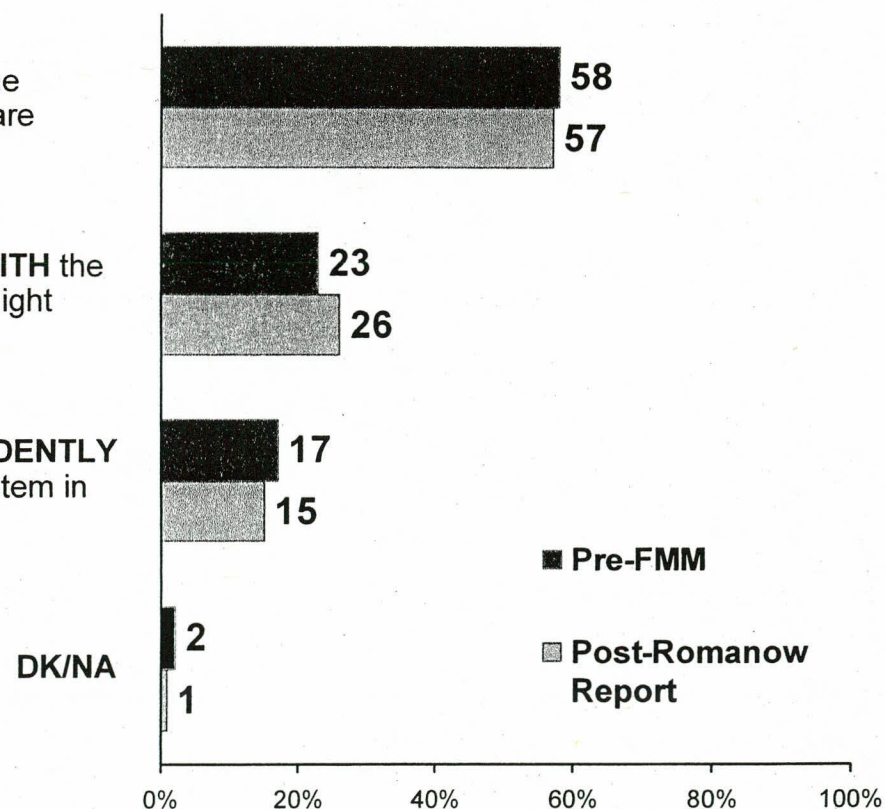

Preferences for Level of Provincial/Federal Collaboration in Reforming the Health Care System

If you had your way, would you ...

Encourage your provincial government to **WORK WITH** the federal government to implement changes to the health care system

Encourage your provincial government to **NEGOTIATE WITH** the federal government but not to implement any parts they might disagree with

Encourage your provincial government to **ACT INDEPENDENTLY** of the federal government in reforming the health care system in your province or territory

Q.15 If you had your way, would you...

Base: Total respondents (Pre-First Minister's Meeting, n=1,506*; Post-Romanow Report, n=2,446*)

* Weighted sample

Preferences for Level of Provincial/Federal Collaboration in Reforming the Health Care System - *By Region*

Pre-FMM Survey (Jan 26 - Feb 1, 2003)

	Total (n=1,506) %	Region

Extent to Which Proposed Reforms Would Make a Difference in Improving Health Care

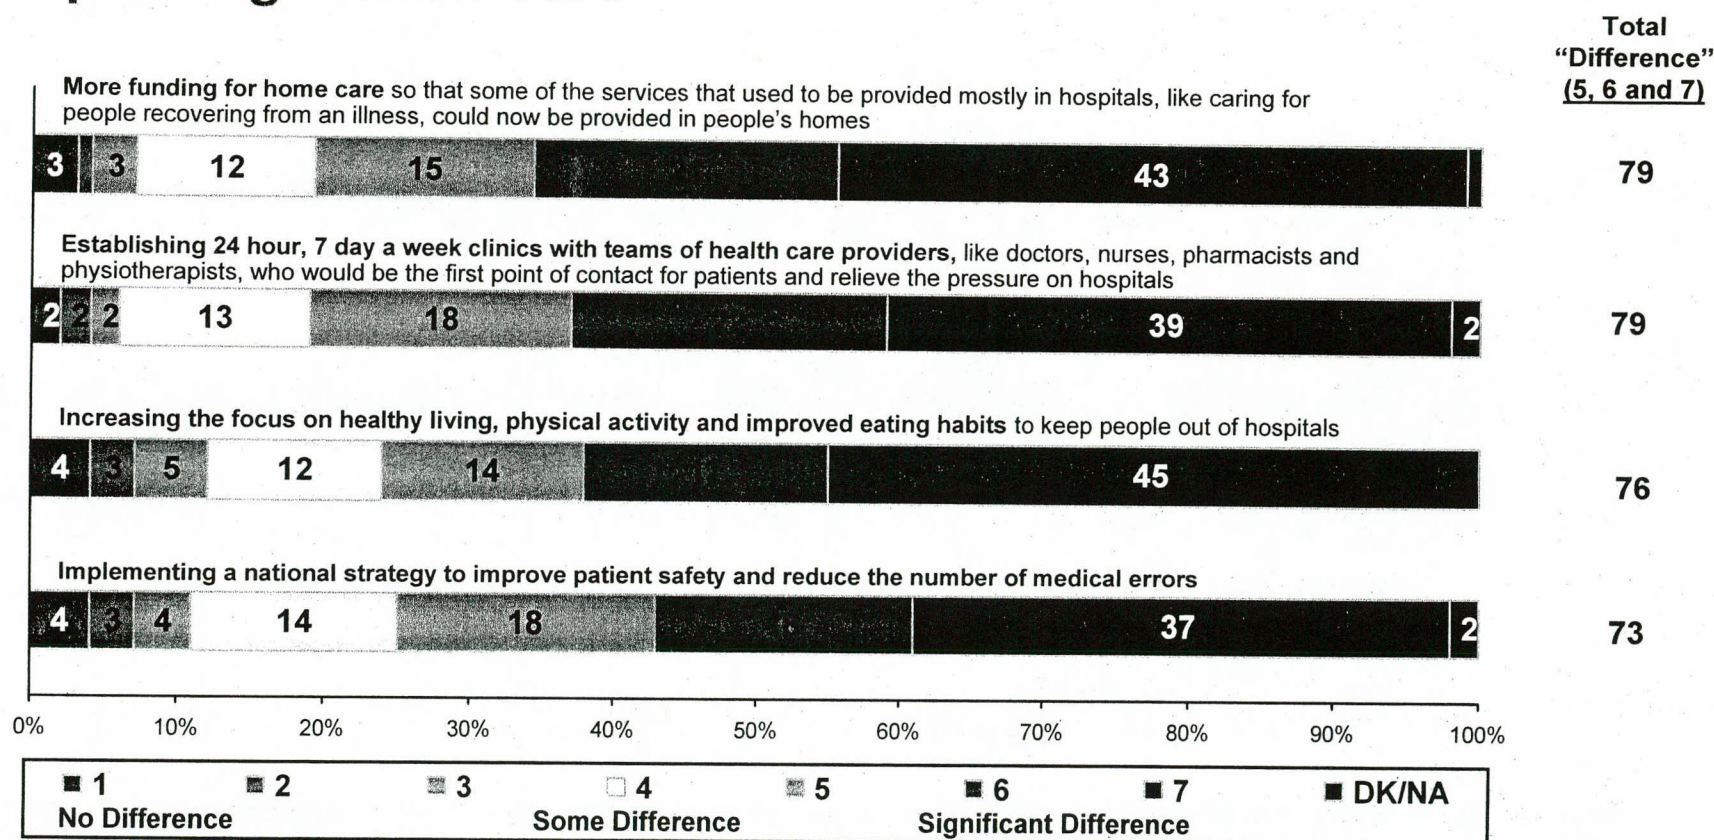

Q.5a-h ROTATE[The Government of Canada/A number of studies] [has/have] proposed various reforms to health care. I'd like you to tell me the extent to which you think each of these proposed reforms, if implemented, would make a difference to improving the quality of health care. Please use a scale of 1 to 7, where 7 means it will make a significant difference, 1 means it will make no difference at all and the mid-point 4 means it will make some difference. How about ...

Base: Total respondents (n=1,506*)

* Weighted sample

Extent to Which an Annual Report of Health Care Performance Measures Would Improve Quality of Health Care

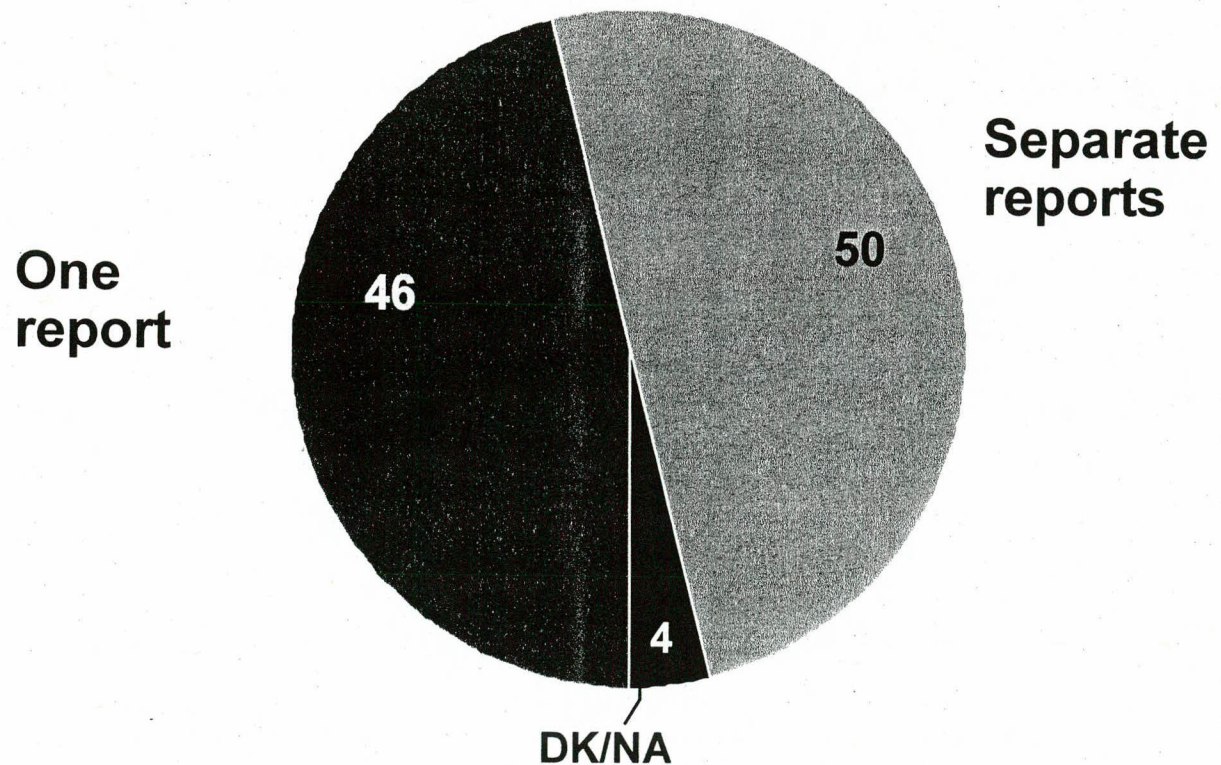

Q.9 Now, suppose that both levels of government agreed to a series of objectives for improving the quality of health care, like ensuring that a certain percentage of the population has access to a team of health providers on a 24/7 basis, maximum waiting periods for some surgeries, or the time spent in emergency wards. Every year, each of the (provinces/territories) would have to issue a report to the public, with these kinds of health care performance measures that could be compared across the provinces and territories. Do you think this kind of reporting would improve the quality of health care significantly, somewhat, not very much or not at all?

Base: Total respondents (n=1,506*)

* Weighted sample

Preference For One National vs. Separate Provincial Reports

One Report or Separate Reports by Region:

	One	Separate
Atlantic	46	52
P.Q.	32	63
ON	52	45
Prairies	46	49
BC/North	53	43

Q.10 And, if such a report were to be published, would you prefer to see ONE national report with information on each province and territory OR separate reports for each of the provinces and territories?

Base: Total respondents (n=1,506*)

* Weighted sample

Extent to Which Establishing an Advisory Committee to Annually Report on the State of Health Care Would Improve Quality of Health Care

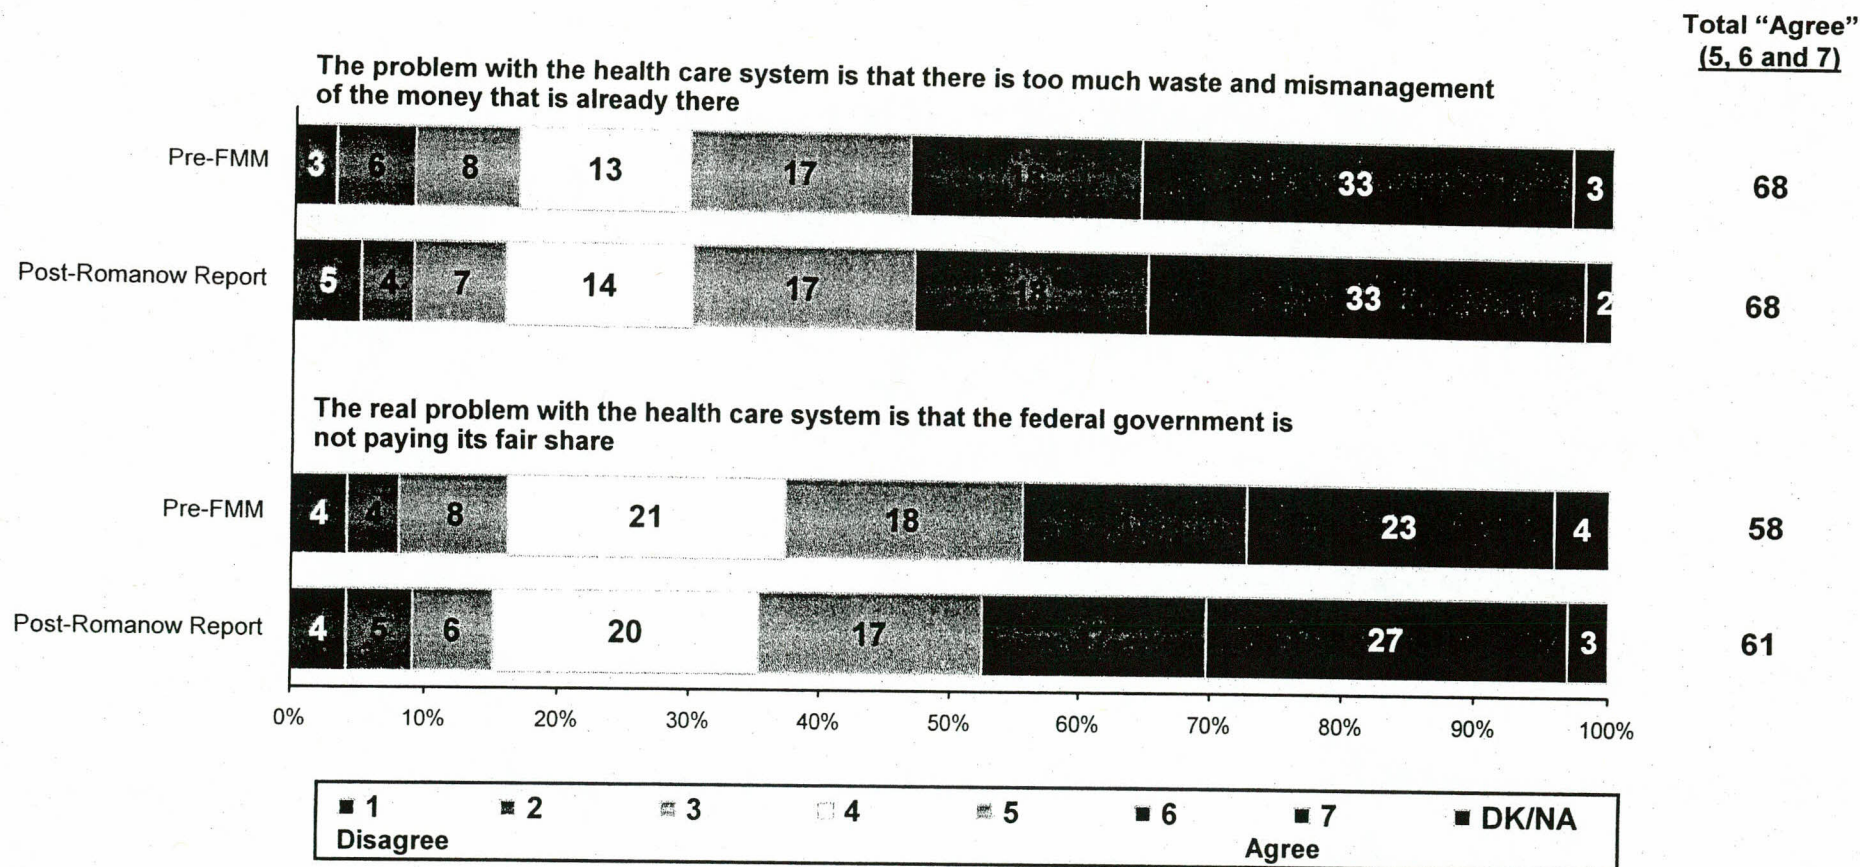

Q.14 Now suppose that as part of an agreement on health care the federal, provincial and territorial governments established an advisory body, with representatives from the public, the health care community and governments. This group would report annually to Canadians and their governments on the state of health care and the implementation of the agreement. Do you think this kind of an advisory group would improve the quality of health care significantly, somewhat, not very much or not at all?

Base: Total respondents (n=1,506*)

* Weighted sample

Reaction to Funding and Accountability Proposals

Attitudes Towards More Funding to Health Care

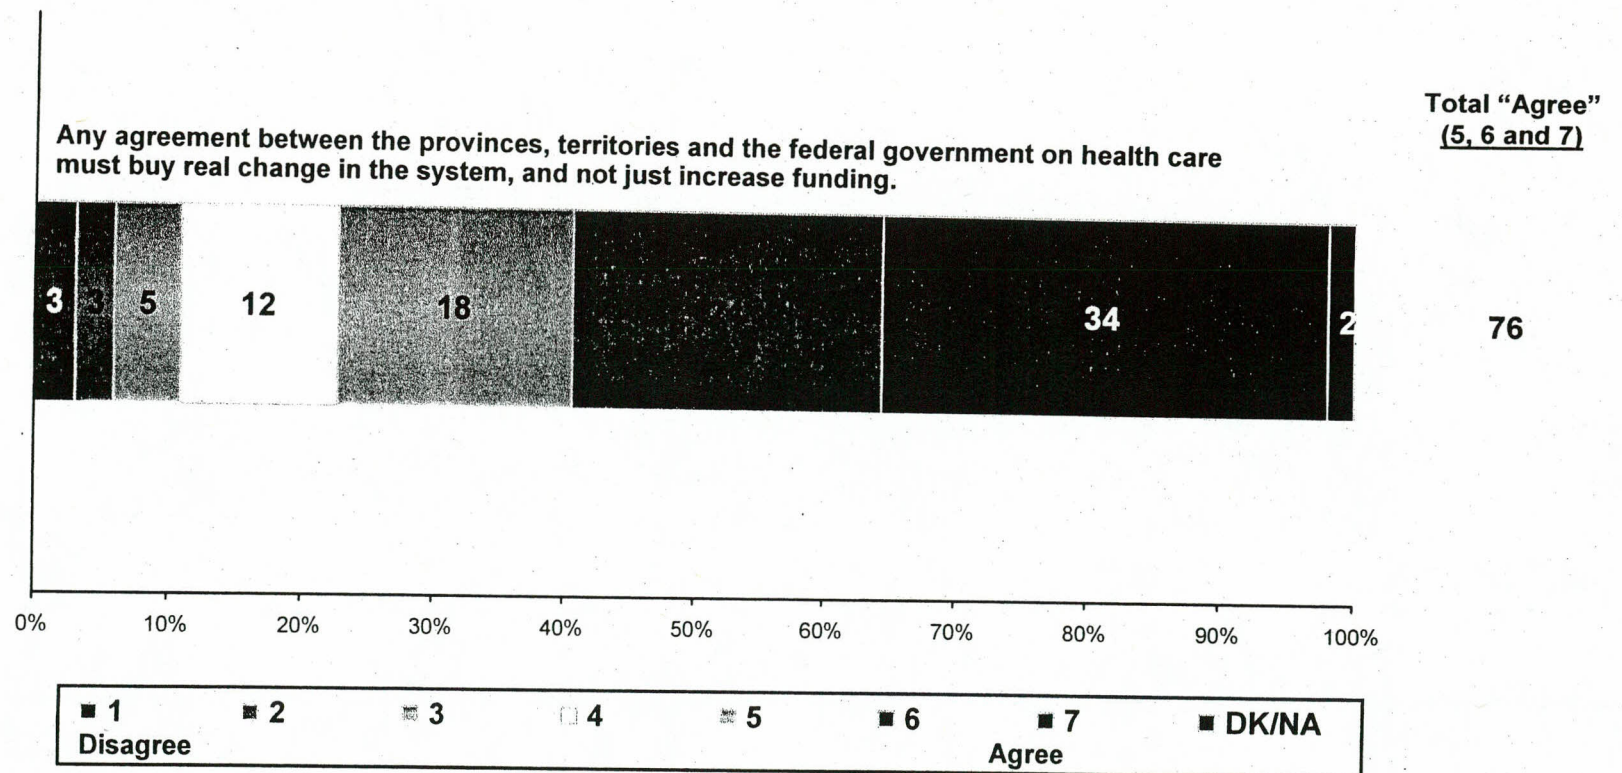

Q.3a,d Using a scale of 1 to 7, where 7 means you strongly agree, 1 means you strongly disagree and the mid-point 4 means you neither agree nor disagree, please tell me if you agree or disagree with the following statements.

Base: Total respondents (Pre-First Minister's Meeting, n=1,506*; Post-Romanow Report, n=2,446*)

* Weighted sample

Attitudes Towards More Funding to Health Care

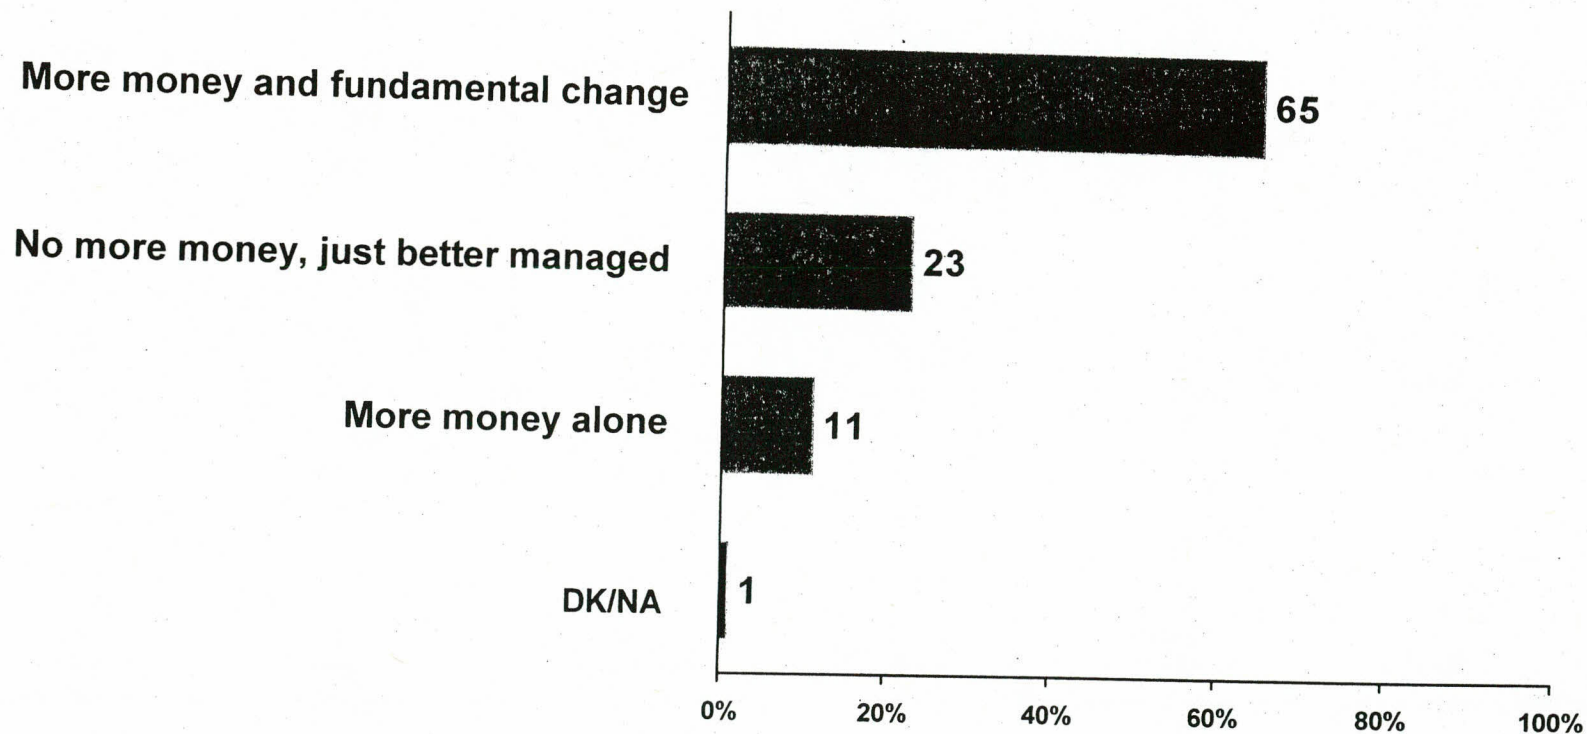

Q.3e Using a scale of 1 to 7, where 7 means you strongly agree, 1 means you strongly disagree and the mid-point 4 means you neither agree nor disagree, please tell me if you agree or disagree with the following statements.

Base: Total respondents (n=960*)

* Weighted sample

Fundamental Change vs. Funding only vs. Better Management

Q.4 Some people say that the health care system doesn't need more money, it just needs to be better managed. Other people say that more money would go a long way to fixing what is wrong with health care. Still other people say that more money is required but that's not enough, the health care system needs to be fundamentally changed. Which one of these THREE points of view is closer to your own?

Base: Total respondents (n=1,506)*

* Weighted sample

Fundamental Change vs. Funding only vs. Better Management - *By Region*

	Region					
	Total (n=1,506) %	Atl. (n=114) %	P.Q. (n=362) %	ON (n=571) %	Prairies (n=261) %	BC/North (n=199) %
More money and fundamental change	65	56	72	64	61	67
No more money, just better managed	23	28	19	21	29	22
More money alone	11	14	8	14	11	9

Funding as a Lever for Directed Health Care Spending

Q.8 Some people say that if the federal government can't get cooperation from the provinces to implement [health care reform] [some of the recommendations¹], they should not make ANY additional investments in the system. Other people say that the federal government MUST increase funding to the system, irrespective of whether or not they have the agreement of the provinces on how the funds should be used. Which view is closer to your own?

¹ Wording used in post-Romanow survey

Base: Total respondents (Pre-First Minister's Meeting, n=1,506*; Post-Romanow Report, n=2,446*)

* Weighted sample

Funding as a Lever for Directed Health Care Spending - By Region

Pre-FMM Survey (Jan 26 - Feb 1, 2003)

	Region					
	Total (n=1,506) %	Atl. (n=114) %	P.Q. (n=362) %	ON (n=571) %	Prairies (n=261) %	BC/North (n=199) %
Federal government should not make more investment in the system without provincial cooperation	34	22	35	34	32	41
Federal government must increase funding regardless of whether or not they have provincial cooperation	61	75	60	60	64	53
DK/NA	5	4	5	5	4	6

Q.8 Some people say that if the federal government can't get cooperation from the provinces to implement [health care reform] [some of the recommendations¹], they should not make ANY additional investments in the system. Other people say that the federal government **MUST** increase funding to the system, irrespective of whether or not they have the agreement of the provinces on how the funds should be used. Which view is closer to your own?

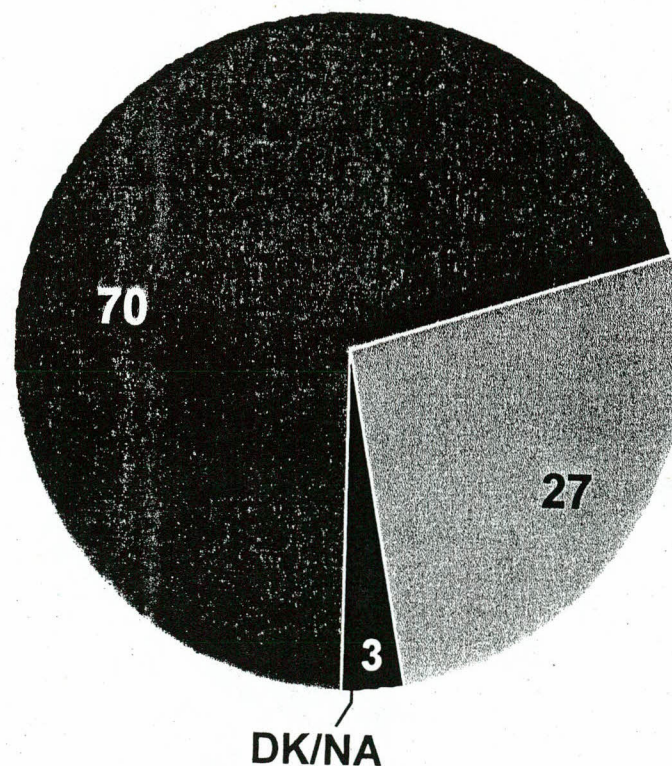

¹ Wording used in post-Romanow survey

Base: Total respondents (Pre-First Minister's Meeting, n=1,506*)

* Weighted sample

Funding With or Without Conditions Attached

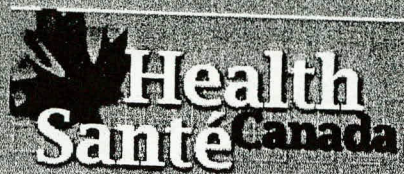

Funds transferred should be spent on health care and national objectives met

Provinces should not be told how to spend funds transferred from the federal government

Q.11 Some people say that it is the federal government's job, on behalf of Canadian taxpayers, to make sure that funds transferred to the provinces for health care are spent on health care and that national objectives for health care quality are met by each of the provinces. Other people say that since the provinces fund a significant portion of the cost of health care and are responsible for delivering health care services, they should not be told how to spend funds transferred from the federal government. Which one of these two points of view is closer to your own?

Base: Total respondents (n=1,506)*
* Weighted sample

Conclusions

Conclusions

- ◆ **Canadians seek greater investment in health care AND fundamental change to the system**
 - More money without real change is NOT ACCEPTABLE
- ◆ **Strong support for all proposals, advisory committee and annual reporting**
 - Split support for national versus separate reports
- ◆ **Accountability with some provincial flexibility represents the WIN/WIN formula**
- ◆ **No one level of government is seen to be gaining momentum in terms of leading the debate on health care heading into the FMM**
 - Canadians cynical about commitment of both levels to resolve issue BUT
 - Desire governments to work together

Attitudes Towards Health Care and Health Care Reform

National Polling
Pre-First Ministers' Meeting

February 3, 2003

Conclusions

Conclusions

- ◆ **Canadians seek greater investment in health care AND fundamental change to the system**
 - More money without real change is NOT ACCEPTABLE
- ◆ **Strong support for all proposals, advisory committee and annual reporting**
 - Split support for national versus separate reports
- ◆ **Accountability with some provincial flexibility represents the WIN/WIN formula**
- ◆ **No one level of government is seen to be gaining momentum in terms of leading the debate on health care heading into the FMM**
 - Canadians cynical about commitment of both levels to resolve issue BUT
 - Desire governments to work together

Health Canada - Pre-FMM - Final Results

The problem with the health care system is that there is too much waste and mismanagement of the money that is already there.

Health Canada – Pre-FMM – Final Results

The real problem with the healthcare system is that the federal government is not paying its fair share.

Health Canada – Pre-FMM – Final Results

The real problem with the healthcare system is that the federal government is not paying its fair share.

Health Canada – Pre-FMM – Final Results

Now suppose all levels of governments established an advisory body, with representatives from the public, the health care community and governments.
Do you think this type of advisory group would improve the quality of health care....?

INTRO:

Hello, this is _____ calling from GPC Research. We're a professional public opinion research company. Today we're talking to a random sample of Canadians about some important issues. The study is sponsored by the Government of Canada and all of your responses would be held strictly confidential. I'd like to assure you that we're not trying to sell you anything. I'd like to speak to the person in your household who is 18 years of age or older, and who celebrated the most recent birthday. Is that you? (STAY ON THIS SCREEN IF THEY HAVE TO GET A NEW PERSON)

Q3E:

Any agreement between the provinces, territories and the federal government on health care must buy real change in the system, and not just increase funding.

1 - Strongly disagree.....	01
2 - Disagree	02
3 - Somewhat disagree	03
4 - Neither agree nor disagree	04
5 - Somewhat agree	05
6 - Agree.....	06
7 - Strongly agree	07
DK / NA	98
REF	99

Q4:

Some people say that the health care system doesn't need more money, it just needs to be better managed. Other people say that more money would go a long way to fixing what is wrong with health care. Still other people say that more money is required but that's not enough, the health care system needs to be fundamentally changed. Which one of these THREE points of view is closest to your own?

REF	99

Q11A:

Certaines personnes sont d'avis que les provinces et territoires devraient se voir dicter l'affectation de nouveaux fonds pour les soins de santé à des domaines précis, par exemple une meilleure couverture pour les soins à domicile ou l'achat d'équipement de diagnostic. D'autres soutiennent qu'étant donné les besoins différents de chaque province et territoire, ceux-ci devraient être en mesure d'affecter les ressources financières là où ils jugent que le besoin est le plus grand. Lequel de ces points de vue se rapproche le plus du vôtre?

Les provinces et les territoires devraient se voir dicter l'affectation des fonds.....001

Les provinces et les territoires devraient être en mesure d'affecter les ressources financières là où ils jugent que le besoin est le plus grand002

REF99

Q12:

Maintenant, supposons qu'en vertu d'un accord sur les soins de santé, les gouvernements fédéral, provinciaux et territoriaux mettent sur pied un organisme consultatif, regroupant des représentants du grand public, des dispensateurs de soins de santé et des gouvernements. Ce groupe serait responsable de présenter un rapport annuel aux Canadiens et à leurs gouvernements sur l'état des soins de santé et la mise en œuvre de l'accord. Croyez-vous qu'un tel organisme consultatif améliorerait la qualité des soins de santé de façon significative, quelque peu, très peu ou pas du tout?

De façon significative.....01
 Quelque peu.....02
 Très peu.....03
 Pas du tout.....04
